

**Your journey
from AIS to AIM**

Are you on track?

AIM Data Catalogue

The revision to ICAO Annex 15, effective in November 2018, along with the new PANS-AIM (Doc 10066), introduces significant changes to the way that aeronautical data is collected, processed and distributed.

ITV can support customers in tailoring to their own needs the Aeronautical Data Catalogue as specified in PANS-AIM Appendix 1 and implement successfully into their future digital AIM business.

SERVICES

- ✘ Develop the Aeronautical Data Catalogue as specified in PANS-AIM Appendix 1 tailored to own organisation
- ✘ Support in developing the originator index for the aeronautical data
- ✘ Extend the Aeronautical Data Catalogue to incorporate national requirements
- ✘ Use a database to manage the aeronautical data
- ✘ Develop an interface to access the Data Catalogue

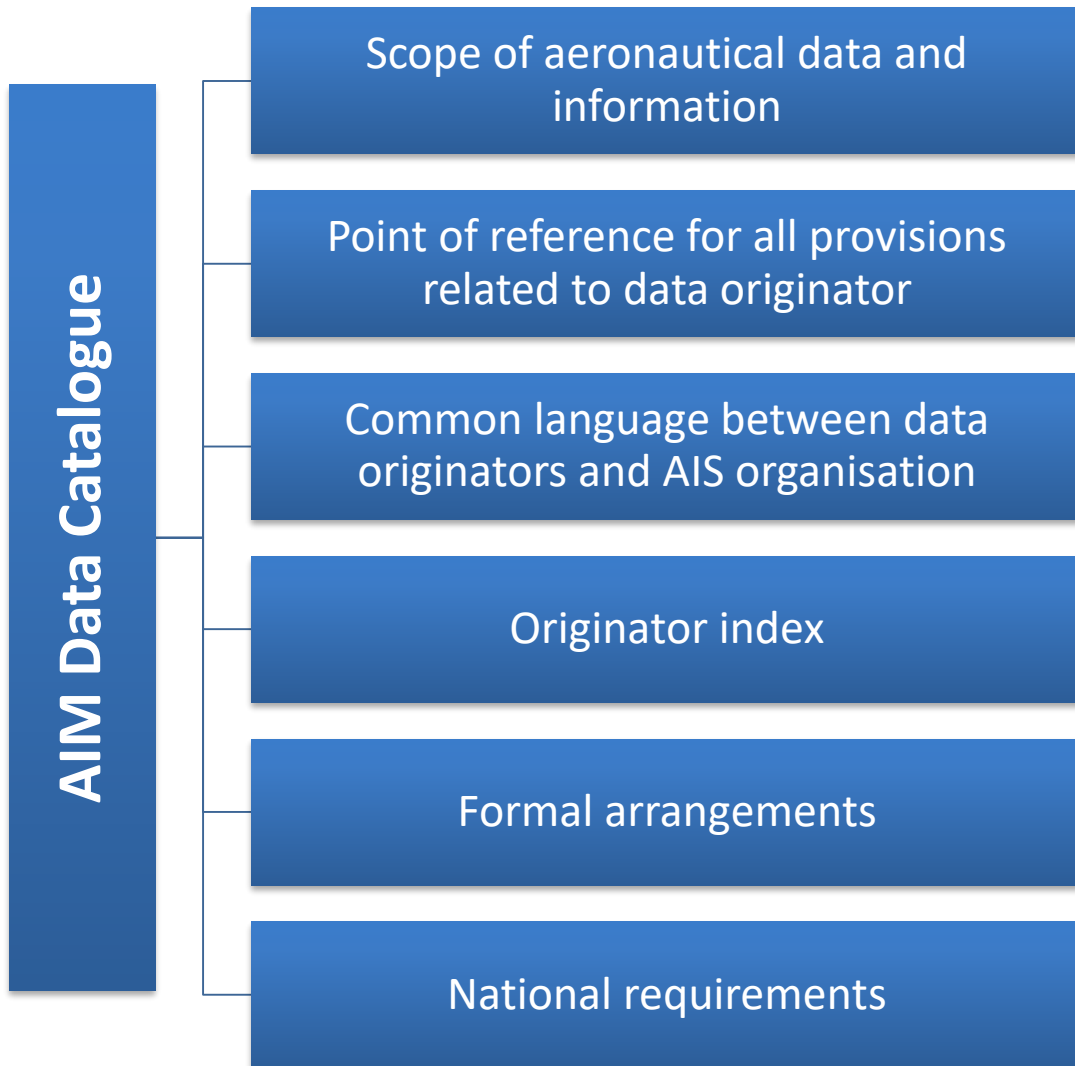

BENEFITS

- ✘ Facilitate the shift to a data-centric environment
- ✘ Have a point of reference to all aeronautical data the AIS collects and maintains
- ✘ Enable national and/or regional extensions
- ✘ Facilitate formal arrangements
- ✘ Engage the data originators and the AIS organisation

CUSTOMERS

- ✘ Civil Aviation Authorities
- ✘ Air Navigation Service Providers

DATA CATALOGUE

Your proven partner to implement AIM

Our AIM consultants have hands on AIS to AIM experience gained from working with originators, regulators and service providers in implementing AIM. In addition to having contributed to the development of the new ICAO Annex 15 and PANS-AIM, they engage in working arrangements of ICAO and EUROCONTROL and participate in Global AIM events of IFAIMA.
