

Your journey
from AIS to AIM

Are you on track?

AIM Procurement Support

The revision to ICAO Annex 15, effective in November 2018, along with the new PANS-AIM (Doc 10066), introduces significant changes to the way that aeronautical data is originated, managed and provided.

ITV can assist customers with the development of the business case and new system specification, through tender analysis, selection of preferred option, implementation and post implementation support.

SERVICES

- ✘ Support the procurement process from start to finish
- ✘ Develop an infrastructure or service roadmap
- ✘ Define the scope of the new AIM system or service
- ✘ Develop the business case
- ✘ Conduct a market analysis
- ✘ Prepare technical specification
- ✘ Support the call for tender process
- ✘ Evaluation of tenders
- ✘ Guidance on selection of preferred option
- ✘ Implementation planning
- ✘ Post implementation support

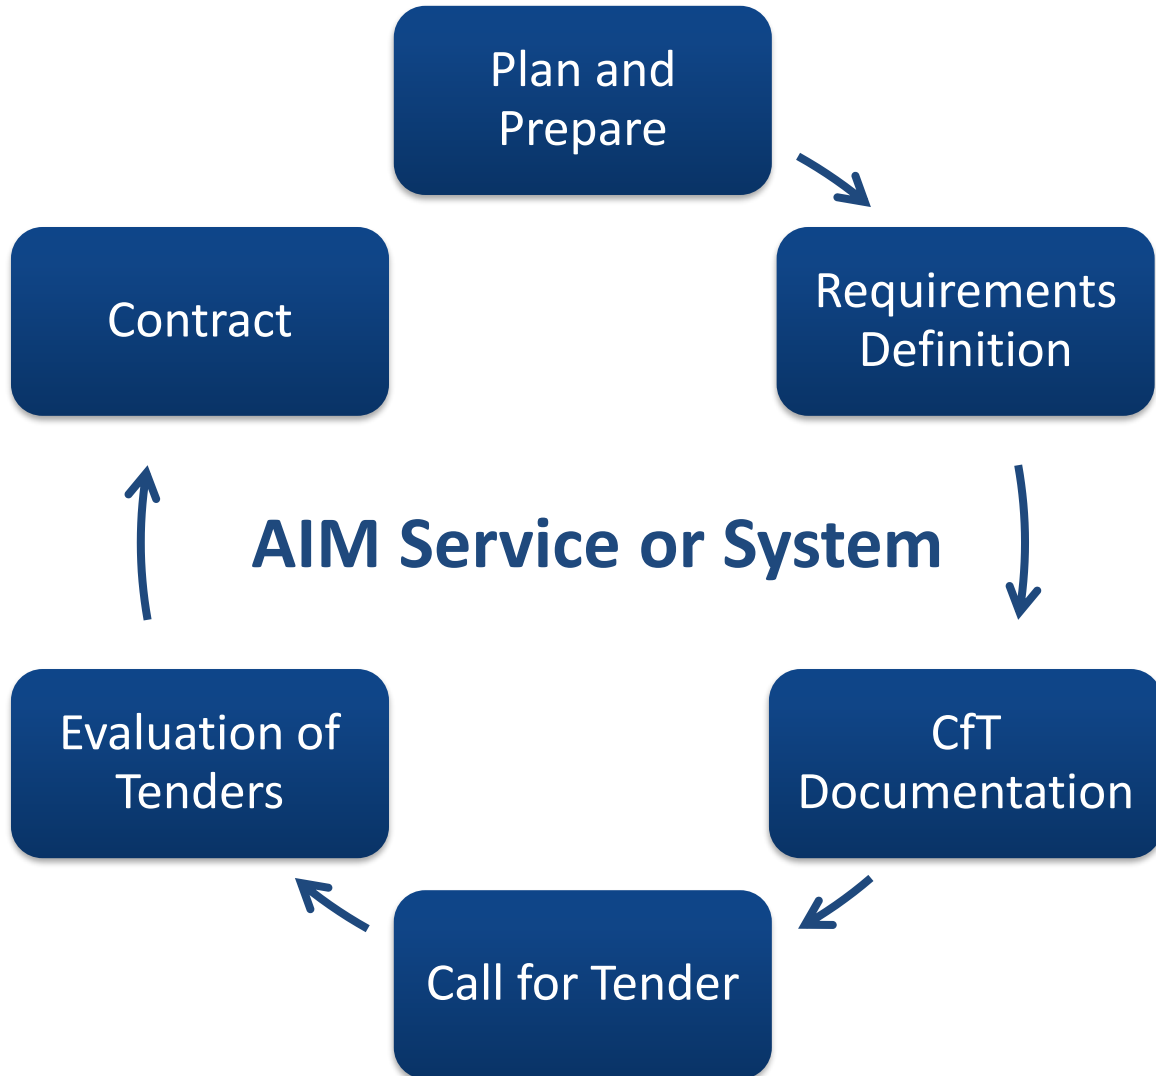

BENEFITS

- ✘ Independent expertise
- ✘ Enhance available manpower
- ✘ Shorten the journey to achieve compliance
- ✘ Reduce implementation risks

CUSTOMERS

- ✘ Civil Aviation Authorities
- ✘ Air Navigation Service Providers
- ✘ Aerodromes
- ✘ Data Integrators
- ✘ Data Originators

PROCUREMENT PROCESS

Your proven partner to implement AIM

Our consultants have hands on experience for supporting the procurement of AIM services or systems based on our implementation experience and our involvement with industry. We participate at the CANSO World ATM and at Global AIM events of IFAIMA.
